

PAUL FATTI

DIRECTOR

PROFESSIONAL

Professor Emeritus, Wits University.

STAKEHOLDER REPRESENTATIVE

Natural Resource Conservation, although my portfolio on the Board is Cultural Heritage...

INTEREST IN THE MAGALIESBERG

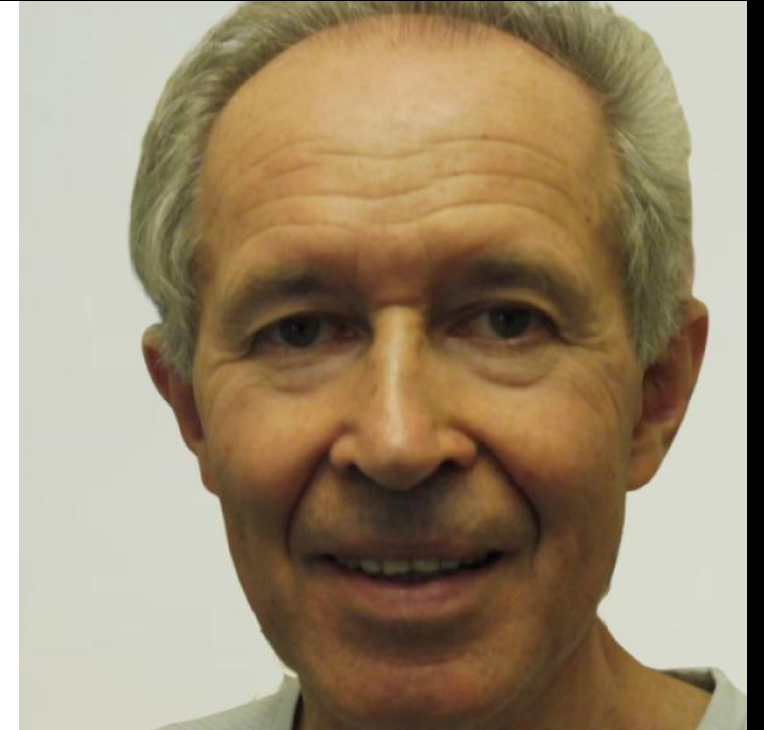

Many years of climbing and hiking in the Magaliesberg and involvement in the conservation of the mountain range

EXPERIENCE

A founder member of the Magaliesberg Protection Association and served as its Chairman for 40 years.

INVOLVEMENT IN THE MAGALIESBERG BIOSPHERE

Spent many years promoting the Biosphere concept with provincial government and was actively involved in drawing up the Biosphere proposal that was submitted to UNESCO. I believe that this is the most important and complex Biosphere in South Africa, being unique as regards the geological, paleontological and environmental aspects, yet situated close to the country's economic hub.
