REASONS FOR YOUR COMMITMENT AND PARTICIPATION AS A BOARD MEMBER OF THE MAGALIESBERG BIOSPHERE

I am very passionate about environmental protection and believe it is very crucial for the benefit of our children and their children. The biosphere is such a special place full of natural biodiversity and I would love to see that protected. I do acknowledge that development such as mining plays a huge role in the socio economic environment but it should be done in a sustainable manner without destroying our beautiful biosphere.
